

WAVE SPORT 2004

PERFORMANCE

If Wavesport has one defining legacy it's performance. It all started back in 1986 in a small Steamboat Springs, Colorado factory. Ever since performance has been the overriding design goal for Wave Sport kayaks. From that point forward Wave Sport boats have proven again and again that innovative design, when matched with creativity on the water, leads to revolutionary performance. And while performance does lead to results, like 8 World Championship titles since 1997, that's not the reason it's so important. The reason is simple; performance means MORE FUN ON THE WATER. Every Wavesport design emulates this philosophy and continues to drive us to this day. So whichever boat you choose, remember, your not just part of a legacy, you're the reason for it.

ZERO GRAVITY

ZG: Before the ZG playboats were either slow and bouncy or fast but stuck to the surface. The ZG compromises nothing in the quest for air. By reducing hull rocker and adding side-cut rocker and rails, ZG achieves maximum speed, carvability and bounce. This boat opens inverted aerials to the smaller features most paddlers typically surf. It lets you carve smaller features, surf smaller waves and it's brilliant volume distribution grants ownership of the airspace above your favorite loop hole.

	ZG 48	ZG 54
LENGTH	6'4"	6'6"
WIDTH	24.5"	25"
DEPTH	11.75"	12"
VOLUME	48 GAL	54 GAL
RANGE	100-180 lbs	140-220 lbs
WEIGHT	31 lbs	33 lbs

DIESEL

TEAM WAVESPORT

A huge part of Wave Sport's performance-driven legacy centers around our world class team of athletes. Kayaking is their life, and they travel the world searching for new rapids and new waves. By joining forces with these incredible athletes we're able to bring all the experience they gather in the field into the design room, and ultimately to you. Revolutionary designs start with ideas generated by our athletes and our in-house design team. Once a new design is created, our team pushes it to the limits, redefines our sport, then comes back to the table with a refined set of performance demands; then we do it all over again. This process is responsible for all of our designs, and is the reason each and every one of them performs so well.

What is doubleyouess? It's a lifestyle, a unique way of viewing the world, and it's focal point is whitewater. Follow the liquid lifestyles of our athletes at www.doubleyouess.com.

Diesel: The most versatile, all-river, all-conditions whitewater kayak ever made. Smooth and stable, quick and maneuverable, capable of going "off-road" when you're ready — the Diesel's high volume deck with forgiving, performance-oriented hull puts you in control regardless of the situation. Surfing, river-running or steep creeking, the Diesel is ready to roll. (And easy to roll, for the record.)

	DIESEL 65	DIESEL 75
LENGTH	7'6"	8'0"
WIDTH	25"	25.5"
DEPTH	12.5"	12.75"
VOLUME	65 GAL	75 GAL
RANGE	100-200 lbs	140-240 lbs
WEIGHT	39 lbs	41 lbs

EZ SERIES

EZ Series: The EZ series has nothing left to prove. From accelerating newbies' learning curve to winning the Freestyle World Championships, these boats have done it all. High parting lines won't catch edges; progressive rocker won't pearl; unique volume distribution encourages learning every playboating move out there with confidence. An indisputable performer at a great price.

	EZ	BIG EZ	SUPER EZ
LENGTH	6'9"	7'	7'
WIDTH	25"	26"	27"
DEPTH	12"	13"	13"
VOLUME	47 GAL	51 GAL	62 GAL
WEIGHT	35 lbs	37 lbs	39 lbs

TRANSFORMER

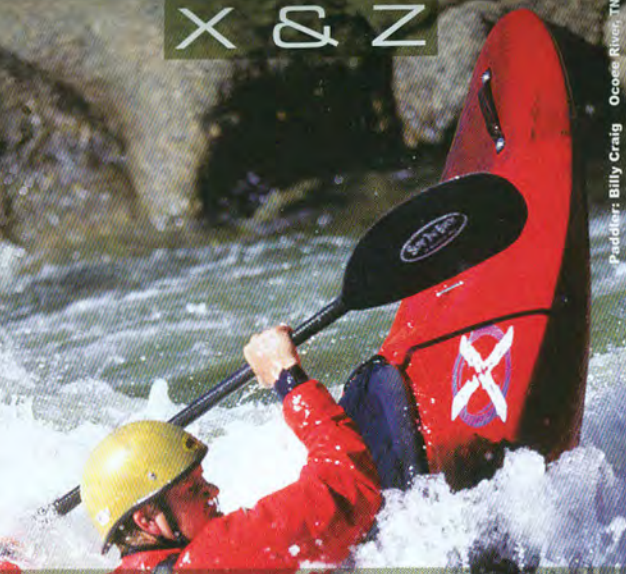

Transformer: The most stable platform of any freestyle kayak. The T-series excel in holes, on fast, steep waves, and offers easy access to the vertical world in flatwater. Rubber bumpers protect the ends, making the T-series perfect for shallow, rocky rivers. Interchangeable tips (sold separately) give you increased vertical control when cartwheeling and squirting

	T1	T2	T3	T4	
LENGTH	6'	6'2"	6'6"	6'9"	 8"
WIDTH	25"	25"	27"	27.5"	 5"
DEPTH	12"	12.75"	13.25"	13.75"	 5/8"
VOLUME	49 GAL	55 GAL	60 GAL	67 GAL	

X & Z

Paddler: Billy Craig Ocoee River, TN

X & Z: The first "modern" river-running playboats designed to get you down the river with ease and take advantage of every playspot. X and Z spawned the "new school" kayak movement with revolutionary performance that combines comfort, ease of use and unbeatable value.

	X	Z
LENGTH	8'0"	8'8"
WIDTH	25"	26"
DEPTH	12"	12"
VOLUME	56 GAL	63 GAL
WEIGHT	38 lbs	41 lbs

MUTANT & Y

Paddler: Jmigrndr schlott Photo: Jens Klatt Saalack River, Austria

Mutant & Y: Smaller paddlers seeking a creekboat for tight, technical rapids appreciate the Mutant's unique design features: quick-turning, excellent secondary stability, and a displacement hull that makes for extremely soft landings. For larger paddlers seeking the same qualities, the Y is a tried and true performer at home on the steepest whitewater.

	MUTANT	Y
LENGTH	8'1"	8'2"
WIDTH	25"	25"
DEPTH	13"	13"
VOLUME	61 GAL	73 GAL
WEIGHT	44 lbs	43 lbs

SIREN & EVO

Paddler: Erica Mitchell Photo: Dan Gavere Chickamaas River, OR

Evo & Siren: Evo is the first high-performance, super-loose, super-slicey playboat sized for younger paddlers, women and smaller men. Low cockpit rim and overall knee height provide unparalleled comfort, control and confidence. The Siren pioneered kayak design for women, integrating the EZ hull architecture with ergonomics suited for women's physiology. Result: improved control.

	SIREN	EVO
LENGTH	7'3"	7'0"
WIDTH	23"	23"
DEPTH	11"	9.5"
VOLUME	41 GAL	37 GAL
WEIGHT	32 lbs	31 lbs

F.A.T. OUTFITTING

(FIT ADJUSTMENT TECHNOLOGY)

FAT 1.0

- Fully adjustable thigh hook system.
- Covered foam seat pad.
- Adjustable sculpted hip pads.
- Sculptable foot shims.
- Adjustable backband.

FAT 2.0

- Fully adjustable thigh hook system.
- Foot bulkhead that is infinitely adjustable while you are seated.
- Padded seat with adjustable position, height and leg cant.
- Molded adjustable backband.
- Adjustable sculpted hip pads.
- NEW: Ratcheting Backband System

FAT 3.0

- The Transformers are fitted with FAT 3.0 which includes all the features of FAT 2.0 plus a modified adjustable foot bulkhead and a new thigh hook system.
- NEW: Ratcheting Backband System

FAT 4.0

- Taking our revolutionary outfitting one step further.
- Lighter, more comfortable bulkhead system
- Newly designed thigh ratchet backband
- Lighter, more ergonomic seat

MODEL	OUTFITTING			
ZG & Diesel				4.0
Transformers			3.0	
EZ Series		2.0		
Siren		2.0		
Mutant		2.0		
Evo	1.0			

The X, Y and Z are fitted with Wave Sport basic outfitting which includes: Molded thighbraces, adjustable footbraces, adjustable back band, molded seat pad and hip pads.

Kayak Colors 2004

Citrus and Ice available on ZG and Diesel models only.

FLYER

Paddler: Stuart Mounsey Photographer: Andrew Wilkenson Skookumchuck, BC

FLYER	
LENGTH	7'6"
WIDTH	25"
DEPTH	12.5"
VOLUME	65 GAL
WEIGHT	30 lbs

Flyer: Wave Sport is no stranger to the ocean. Now we're deepening the relationship with our own composite surf kayak: the Flyer. Stuart Mounsey and surf kayak World Champion Johnny Grossman designed this boat to merge the traditional surf kayak's speed with a whitewater kayak's agility. Drop in, maintain the green and throw snappy cutbacks, floaters, helixes, flip turns and air blunts.sorry, nasty tricks not included.

Rapid Transit Kayak Bag

Rugged 600 denier polyester fabric. Nylon reinforcement. Large zippered outer cargo pocket. Tough plastic wheels for rolling. U-shaped zipper for easy access. (Fits kayaks up to 7ft / 2.10m long)

Metro Wheeled Duffle

Rugged 600 denier polyester fabric. Nylon reinforcement. Zippered outer pockets. Removable shoulder strap. Tough plastic wheels for rolling. O-shaped zipper for easy loading.

Courier Paddle Bag

Rugged 600 denier polyester fabric. Padded separators. Removable shoulder strap. U-shaped zipper for easy access. Fits up to 4 sets of paddles. (Max. length 2m)

Urban Day Pack

Rugged 600 denier polyester fabric. Nylon reinforcement. Zippered outer pocket. Padded, contoured shoulder straps.

GEAR

Hats, T's & Hoodies

Paddle Jackets

- Breathable DualTex coated nylon.
- Articulated shoulders and elbows.
- Seamless underarm panels.
- Discreet cargo pockets.
- Adjustable neck wrist gaskets.
- Reflective detailing.
- Sizes XS S M L XL XXL

Orbit (LS)

Ion (SS)

InterLoc

Semi-Dry Jackets

- Reinforced elbow areas.
- X-Tend neck gasket.
- Latex wrist gaskets with over-cuffs.
- Double waist tunnel.
- InterLoc system compatible.
- Sizes XS S M L XL XXL

Gravity (LS)

Xeon (SS)

InterLoc

Dry Jackets

- ArmorTex padded elbow areas.
- PowerTex padded shoulders.
- Insertable formed foam elbow pads.
- Latex neck gasket with over-collars.
- Latex wrist/bicep gaskets with over-cuffs.
- Double waist tunnel.
- InterLoc system compatible.
- Sizes XS S M L XL XXL

Monolith (LS)

Jupiter (SS)

InterLoc

Dry-Deck Jackets

- Reinforced elbow areas.
- Latex neck gasket with over-collars.
- Latex wrist/bicep gaskets with over-cuffs.
- Stretch neoprene spine panel.
- InterLoc system compatible.
- ArmorTex reinforced bungee skirt.
- Sizes S M L XL

Mercury (LS)

Velocity (SS)

InterLoc

The Wave Sport InterLoc™ System

Wave Sport introduces a revolution in technical kayak apparel... InterLoc. InterLoc utilizes areas of Velcro® laminate neoprene on key areas of sprayskirts, jackets and PFDs. By inserting InterLoc Discs (discs of double-sided hook Velcro) between these key areas, you effectively lock garments together, preventing unwanted movement and completely eliminating garment ride-up. InterLoc literally "locks" your gear together!

You'll immediately notice the difference out on the river. At the put-in you'll lock your gear in place right where you want it. At the take-out your gear will be in exactly the same position, without ever having to re-adjust. This means that you'll be more comfortable and more confident, leaving more time to concentrate on perfecting that new move or nailing your line instead of pulling your PFD out of your face!

(Wave Sport InterLoc garments are fully compatible with other manufacturer's products. However, the InterLoc systems benefits are only realized when using multiple InterLoc garments.)

APPAREL SIZE CHART

SIZE	CHEST	WAIST	NECK	SLEEVE
XS	32" - 34"	26" - 28"	13"	32" - 33"
S	35" - 37"	29" - 31"	14"	33" - 34"

Neo Socks

- Ultra-hardwearing
- ArmorTex soles.
- SupraTex reinforcement.
- Low profile design
- Sizes XS S M L XL XXI.

Neo Wedge Rand

- Hardwearing 3.5mm neoprene.
- Glued, stitched and taped seams.
- Soft, stretchy rubber wedge rand.
- Sticky mesh neoprene finish.
- Waist Sizes XS S M L XL
- Cockpit Std

Pro ArmorTex

- Hardwearing 3.5mm neoprene.
- Partial ArmorTex™ reinforcement.
- Glued, stitched and taped seams.
- 9mm high-tension bungee.
- Sticky latex under edge of the skirt.
- 'Clippable' release handle.
- Waist Sizes XS S M L
- Cockpit Min/Std/Max

InterLoc ArmorTex

- Hardwearing 3.5mm neoprene.
- ArmorTex™ neoprene reinforcement.
- Glued, stitched and taped seams.
- 9mm high-tension bungee.
- Sticky latex under edge of the skirt.
- 'Clippable' release handle.
- InterLoc™ system compatible.
- Waist Sizes XS/S M/L XL/XXL
- Cockpit Min/Std/Max

InterLoc

Proteus

- Freestyle PFD550 denier Cordura nylon shell.
- Simple, low profile design.
- 15.5lbs of flotation.
- USCG approved.
- Sizes XS/S M/L XL/XXL

Ballistic

- Ultra-hardwearing Aramid fabric.
- Smooth, fast draining mesh liner.
- Large cargo pockets.
- Zippered fly with double snap closure.
- Adjustable waistband.
- Double stitched construction.
- Sizes S M L XL
