WHITEWATER. PERIOD.

KELSEY THOMPSON - OH BE JOYFUL

**PLAY &
HARD &**

TEAM WAVESPORT - We're gonna need a bigger trophy case. But Team Wave Sport does a lot more than just bring home national and international medals. They give loads of input to R&D and test our boats until we finally get their blessing...so you know you're paddling what they're training for the next event, they're blasting first descents or contributing their time to a worthy cause. They put in a lot of hours and a lot of hard work. And when it comes to the journey, they always make the most of it.

EUROPE
Casper von Kalmthout - Deb Pinniger - Jakub Nemecek
Michele Ramazza - Noorla Newman - Olaf Obsommer
Seppi Strohmeyer - Simon Strohmeyer - Ingrid Schlott
Nina Halasova - Jutta Kaiser - Alan Ward - Matt Kenna
Doug Cooper

NORTH AMERICA
Bryan Kirk - Trip Jennings - Kelsey Thompson
Tanya Faux - Tyler Curtis - Kim Russell - Taylor Cavin
Todd Baker - Mariann Saether - Elaine Campbell
Chris Wing - Taylor Cole

**WHITEWATER
PERIOD**

No exclamations. No excuses. Or anything else that doesn't need to be there. Look, there aren't enough definites in life. But when you're in your boat, you're in control. You go anywhere your imagination and skill take you. Period. And that's enough. We've poured our heart and soul into boats that master the unpredictable and let you create new moves, new lines, new experiences. From freestyle to creeking, we're putting the tools in your hands (and under your butt) to go out there on your own journey and take control. Period.

KELSEY THOMPSON

FREE STYLE

Freestyle = no rules. It's you. The water. Whether it's kickflipping a mid-rapid wave or snapping a nasty airblunt, this is YOUR time. Our freestyle boats have been designed to be the key that unlocks your potential. What are you waiting for? Find a river, claim your wave and express your true self to the world.

PROJECT 45

PROJECT 52

PROJECT 62

It has defined high-performance freestyle. The hull's combination of speed and pop, combined with smooth, sculpted volume distribution, are exactly why the Project is favoured by World-Class competitors. The air you'll be getting in this baby is unmatched. With 3 sizes, we call it the Project because it's our pet. Our pride and joy. Paddle and believe.

TAYLOR COTE

RIVER PLAY

For those who want to dial it back a notch, but still have the option for some freestyle love, we've got your back. Our river-running play boats get you down river in one piece while surfing every play spot along the way. You'll get the forgiving feeling of a river-runner and the high-performance loose hull of a freestyle boat. So if you're a river-runner who sprints to surf every wave and hole along the way, you've come to the right place.

BRYAN KIRK

The original king of river-runners has a reputation on the water that precedes it. Smooth and stable, quick and nimble, responsive and predictable. With outfitting tweaked for intermediate paddlers, the D-Series is the perfect introduction to the world of whitewater.

RIVER RUN

Point A. Point B. And all the points in-between. Are you skirting over a jumble of manky rocks to line up for a 15-foot boof? Or maybe you're in the midst of a rapid that reminds you of the Zambesi in flood. Either way, you're in the midst of white-knuckle big water, half technical and all fun. And it's our job to keep it that way. So we've given you a boat that is made for that paddler that wants everything. And then some.

WIDTH	25.5" • 65 cm
LENGTH	8' • 244 cm

KELSEY THOMPSON

CREEKING

Creeking is about a lot more than just getting from here to there. It's about exploring steep canyons that few paddlers have laid eyes upon or scouting for the perfect line with steep bubs. It's about that euphoric feeling you share after greasing a class 5+ rapid. You comin'?

And it's about making sure you all reach the take out in one piece. So you're gonna want to be wrapped in a boat that's solid, comfortable, responsive and safe. Ask and you shall receive. Creeking is all about the journey and the adventures that define you.

OUTFITTING

FIT ADJUSTMENT TECHNOLOGY (F.A.T.) OUTFITTING SYSTEM

Almost a decade ago, Wave Sport revolutionized whitewater kayak outfitting with its simple, comfortable, and glove-like fit of the F.A.T. Outfitting System. Today, the fifth generation F.A.T. technology uses the latest engineering techniques and whitewater innovations in the ultimate outfitting for whitewater kayakers who are serious about performance.

Each kayak series has outfitting configured to meet the unique demands of its style, whether full-on playboating, mind-jarring creeker action, or the balanced approach for river running. Comfortable, adjustable, rock solid, and free of pressure points.

The secret to the F.A.T. outfitting is the intuitive features and layout of each model that have been based on feedback from thousands of miles (or kilometers) of paddling in rivers around the world. Small details, such as low seatbacks for easy access storage, quick-adjusting thigh ratchet backband, easy-adjusting aluminum rails, and convenient grab handles become big deals on the long haul.

The major innovations, such as precision cut, aluminum thigh braces, pad seat, moulded hocks, next generation bulkhead system, and premium hip pad, seat pad, and backrest materials keep Wave Sport at the front of the pack. For the ultimate experience, only Wave Sport combines the cutting edge boat designs with the latest in outfitting technology that give you the upper hand in the battle of nature versus man.

TYLER CURTIS
